Summary

Versatile Backend Developer and Digital Strategist specializing in PHP, database architecture, and data-driven community growth. Proven track record of managing technical operations, automating administrative workflows, and driving organic audience retention across social media platforms. A highly organized C1 Advanced English professional adept at balancing systems engineering with virtual assistance and digital marketing execution.

Experience

Olak Tech

Backend Developer Intern (SIWES)

2025 – 2025 | Lagos, Nigeria

- Collaborated on robust backend web engineering and relational database normalization using PHP and MySQL to optimize system performance.
- Engineered secure, clean server-side logic and structured relational schemas to maintain high data integrity.
- Handled day-to-day administrative system logging, technical documentation, and workflow tracking to optimize software project operations.

Crypto Dungeon

Partnerships Contributor

11/2024 – 11/2025 | Remote

- Lead multi-channel community engagement and digital moderation for Web3 enthusiasts and NFT collectors.
- Negotiate and manage strategic business partnerships with ecosystems like Create With Me AI for platform integrations.
- Execute data-driven content and growth strategies on X (Twitter) to significantly boost brand visibility, user onboarding, and audience retention.

Cowrywise

Campus Ambassador Lead

11/2025 – Present | Remote

Selected to coordinate brand awareness and digital savings adoption, managing campaign logistics, promotional materials, and event operations across the campus community.

oSHAMO

Early Rollout Strategist

11/2024 – 08/2025 | Remote

Devised and executed organic digital rollout plans, tracking content deliverables and launch schedules across social media channels to maximize promotional reach and audience engagement.

Education

ND/HND • ND in Computer science

Moshood Abiola Polytechnic

2023 – 2025 | Ogun State, Nigeria

- **Core Coursework:** Database Management Systems (DBMS), Systems Analysis & Design, Web Development, and Digital Marketing Logic

Skills

Technical

- **PHP & Laravel Frameworks:** Server-side application development, secure API architectures, and scalable web engineering.
- **MySQL Database Architecture:** Relational schema optimization, database normalization, complex query building, and data integrity constraints.
- **Systems Development & Tools:** Git/GitHub version control, Progressive Web Apps (PWA), and automated script testing workflows.

Web3/Digital

- **Digital Rollout Strategy:** Organic promotional campaigns, community tracking metrics, launch schedule coordination, and audience retention modeling.
- **Operations & Community Management:** Multi-channel Discord/X moderation, stakeholder communication, onboarding logistics, and data entry administration.
- **Professional Communications:** Technical writing, document management, project workflow organization, and verified C1 Advanced English proficiency.

Languages

English

Professional Fluency (C1 Advanced Certified)

- **Academic Systems Project:** Designed and built a full-stack QR-code attendance tracking system using PHP and MySQL to automate student logging and successfully eliminate manual administrative paperwork for faculty.
-

Certifications

- Backend Engineering & Database Architecture 2025
- C1 Advanced English Certification (EF SET) — 2026
- Google Digital Marketing & E-commerce Professional Certificate, Google
- Social Media Marketing Certification, HubSpot Academy
- Google Project Management Professional Certificate, Google
- Asana Project Management Certificate, Asana

Moshood Abiola Polytechnic
2025

- Awarded for developing innovative digital rollout plans that significantly increased community retention and organic growth.

Cowrywise Campus Ambassador

Cowriswe
2025

- Selected for a leadership role to drive financial literacy and digital savings adoption within the Moshood Abiola Polytechnic community.

Web3 Contributor of the Year

Moshood Abiola Polytechnic
2025

- Recognized for outstanding technical and community contributions within decentralized ecosystems.

Volunteer

Early Rollout Strategist

oSHAMO

Open Source Contributor

GitHub

- Maintain and contribute to various backend repositories focusing on PHP and SQL integrity.

Projects

BlacRate Pro

github.com/Blaconchain/blacrate-pro

2026 – 2026

- Developed a Progressive Web App (PWA) for OTC traders to calculate real-time Crypto-to-Naira rates.
- Implemented offline-first functionality to ensure tool accessibility regardless of network conditions.

Receipt Pro

github.com/Blaconchain/receipt-pro

2026 – 2026

- Architected a backend system for digital receipt management focusing on SQL data integrity.
- Designed relational database schemas to ensure secure and efficient transaction logging.

Smart Attendance System

Academic Project

2025 – 2025

- Built a QR-code-based attendance tracker for MAPOLY to automate student logging.
- Developed the full system using PHP and MySQL, eliminating manual paperwork for lecturers.

Interests

- Technical Writing
- Digital Ecosystems
- Luxury Fashion Trends
- Gaming

Declaration
